

Opportunity for a BE/BC GI to join the GI department of a multispecialty clinic in North Central Iowa. We are a well-established independent physician owned multispecialty group without primary care. We are departmentally structured with each department tracking its own revenue & expenses. Early partnership opportunity. We are physically located adjacent to Mercy Medical Center - North Iowa, a 345-bed, regional referral hospital. Hospital employs primary care, ER and hospitalists physicians which helps make GI call light. Fourteen county service area with population of ~250,000. ASC investment opportunity.

### Highlights

Our medical community provides sophisticated services with all the usual medical and surgical subspecialties, including cardiac surgery, neurosurgery, interventional cardiology and nephrology. All the necessary diagnostic technology required for practicing quality care including, CT, MRI, PET and Interventional Radiology along with pathologists and a full-service laboratory are available. GI services provided both at hospital and ASC.

### Community

Mason City is a family-oriented community of 30,000 people. We are located two hours north of Des Moines, IA, and two hours south of Minneapolis, MN, and nine miles from Clear Lake, one of Iowa's largest recreational lakes. Our community has a nationally recognized school system, with both public and parochial schools available. We know that Mason City is an excellent place to live, practice medicine, and raise a family.
