

MASON CITY CLINIC

Job Description

Job Title: Clinical Athletic Trainer

FLSA Status: Nonexempt

Job Code:

Employee Group: Non-Management

Department: Orthopaedics, Podiatry, Plastics and Reconstructive Surgery Department

General Summary:

Under general supervision of a physician and following established procedures and precedents, assists physician or midlevel provider in conducting patient examinations and providing routine treatments. In doing so, room's patients, obtains patient's vitals, medications, and medical and surgical history and documents information in electronic medical record (EMR). As necessary obtains specimens for testing, conducts select routine laboratory tests, and records results. Responds to routine patient inquiries and telephone calls and determines initial assessment and appropriate plan of care and relays information to physician. Performs routine patient procedures such as casting, splinting, wound packing, preparing for injections, administering and the like. Contacts personnel throughout the Clinic and hospital when ordering linens and supplies, obtaining patient medical information, and ordering tests or scheduling surgeries. Performs related clerical duties such as completing forms and notes, dictating, completing orders, billing services, compiling patient chart information and so forth.

Principal Duties and Responsibilities:

1. Reviews patient chart information prior to patient visit in order to ensure all testing results are available. Schedules necessary x-rays and/or laboratory tests and processes orders through EMR systems.
2. Upon verification of patient's correct identity, escorts patient to examination room. As specified per physician or midlevel provider, obtains patient's vital signs, current medications, past medical and surgical history, and other patient data and documents information in the EMR. Makes patient comfortable while waiting for physician.
3. Prepares patient for specific examination required and assists provider during patient examinations. In doing so, remove bandages, splints, casts or other wound coverings, and other patient-care procedures. Completes necessary forms, such as preadmission testing, test orders, and so forth, with information as directed by the provider.
4. Assists physician with difficult and/or sensitive components of examinations including breast exams and the like.
5. Under direction from the physician or midlevel provider, performs tests and procedures on patient following established procedures. In doing so, performs casting, splinting, and preparation of injections, administering, packs wounds, and so forth.
6. Responsible to provide home exercise protocols for patients per the physician's request.
7. Assists physician or midlevel provider in performing minor procedures in the office such as removal of hardware, wound care, skin biopsies etc. In doing so, prepares patient for procedure and prepares

surgical tray with required instruments, sutures, bandages and other supplies needed for specific procedure.

8. According to established guidelines and protocols, prepares procedure or testing specimens for off-site processing and delivers specimens to appropriate place for processing. Follows established protocols to retrieve specimen reports, updates provider with results, and ensures patient is notified of results.
9. Updates patient information in the EMR including documentation of patient's Primary Care Provider and/or Referring Provider so that courtesy copies are sent appropriately, prepares and sends medication prescriptions per department protocol and physicians orders, cancellation of tests and/or appointments, phone notes, and so forth.
10. According to department protocol, dispenses medical supplies to patients and completes required forms and submits completed forms to appropriate department.
11. Responds to routine patient inquiries and/or telephone calls, determines initial assessment of patient condition, and determines appropriate plan of care according to established guidelines. Immediately confers with physician on complex and/or difficult situations. Documents information in EMR.
12. Ensures examination rooms are stocked with necessary linens and supplies in order to ensure efficient examination of patients. Orders linens and supplies as necessary to keep adequate but minimal inventory on hand.
13. Daily cleans and sterilizes instruments.
14. Contacts various department personnel in order to verify patient chart information, to order additional lab or other tests or schedule surgeries or procedures as directed, and so forth.
15. Ensures patient chart information is prepared prior to patient admission.
16. Maintains patient and clinic confidentiality.
17. Reports risk management concerns and questions to appropriate manager.
18. Performs related clerical duties such as completing forms, documenting phone notes, completing orders, billing services, compiling patient chart information, and so forth.
19. Actively participates in the process improvement initiatives and seeks to identify and resolve issues through teamwork and collaboration.

Knowledge, Skills and Abilities Required:

1. Knowledge of clinical procedures, routine testing methods, and taking vital signs at a level as normally acquired through completion of a bachelor's degree from a college or university with an accredited athletic training education program.

2. Current Board of Certification (BOC) certified and current licensure, certification or registration in the state of Iowa. Must provide proof of Basic Life Support via current card prior to employment or within 30 days of hire and maintains current status. Completes Mandatory Reporting requirement within 6 months of hire and renews this requirement every 3 years..
3. Approximately three to six months of work related experience necessary in order to become competent in casting, splinting and conducting routine tests, to learn Clinic policies and procedures, and become familiar with ordering tests, charts, and supplies.
4. Interpersonal skills necessary in order to interact with patient when gathering specimens and/or performing routine procedures and to communicate with department and Clinic personnel when exchanging patient related information and ordering tests, chart and the like.
5. Analytical skills necessary in order to conduct routine laboratory tests and review results for accuracy, to verify patient information and complete material for medical records charts, to monitor supply levels, and initially assess, determine appropriate plan of care, relay and accurately record phone messages.
6. Ability to concentrate and pay close attention to detail for approximately eighty percent of work time when conducting laboratory tests, completing forms and the like.

Working Conditions:

1. Works in patient care area in which the employee is exposed to contagious diseases, infectious waste, and bodily fluids for approximately fifty percent of work time.
2. Potential for injury is limited when proper safety and health precautions are followed.

Reporting Relationships:

Reports to Reports to the Nursing Manager and Nursing Supervisor.

The above is intended to describe the general content of and the requirements for the performance of this job. It is not to be construed as an exhaustive statement of duties, responsibilities or requirements.
